

ACADEMIA online workshop series

#2 Workshop's title: **Statistics for non-statisticians**

Date & Time: **Wednesday, 9 April 2025 from 12:00 to 13:30 CEST**

**Rationale and
description:**

In the field of transplantation, clinicians and researchers frequently encounter statistical analyses in research papers, clinical trials, and registry reports. However, many professionals lack formal training in statistics, making it challenging to critically assess findings, choose appropriate methods for their own research, or recognise common misinterpretations of data.

Moderators:

Liset Pengel, The Netherlands
Muhammad Khurram, United Kingdom

Panellist:

Hessel Peters-Sengers, The Netherlands

SCIENTIFIC PROGRAMME

12:00 – 12:05	Welcome	Liset Pengel, The Netherlands Muhammad Khurram, United Kingdom
12:05 – 12:25	Fundamental principles of statistics, types of data	Hessel Peters-Sengers, The Netherlands
